

# About Barcelona

**Barcelona** is a huge city with several district articles containing sightseeing, restaurant, nightlife and accommodation listings — have a look at each of them.

Barcelona is the capital and largest city of **Catalonia** and Spain's second largest city, with a population of over one and half million people (over five million in the whole province).

This city, located directly on the northeastern **Mediterranean coast of Spain**, has a rich history, having been under Roman, then Frank law before declaring its independence.

In 1992, Barcelona gained international recognition by hosting the **Olympic Games** which brought a massive upturn in its tourism industry.

This had the effect of changing the city in ways that are still felt today with neighborhoods renovated (and in some cases leveled) and the intense focus of **modern design** permeating all aspects of life in Barcelona from public buildings to something as simple as a park bench or an event poster.

For visitors, this has translated into the very modern, yet incredibly old city you see now in the 21st century, where the **new elements work to both preserve and celebrate the ancient**.

This beautiful city is full of what European cities are known for (outdoor markets, restaurants, shops, museums and churches) and is fantastic for walking with an extensive and reliable Metro system for more far-flung destinations. The core centre of town, focused around the **Ciutat Vella** ("Old City") provides days of enjoyment for those looking to experience the life of Barcelona while the beaches the city was built upon provide sun and relaxation during the long periods of agreeably warm weather.

# Who we are

Domonetio Company is a leading company in the smart home and building area and a certified KNX training center. It has offices in Spain, Ukraine, Colombia and provides consulting services in home automation, training and product distribution as a specialized wholesaler in the KNX technology.

## KNX Course

+

## Networking

# The training

**Domonetio KNX Training Center SPAIN** is offering KNX Training in Barcelona (Spain). The course will be completely in English language. KNX official textbook will be also provided either in English or German.

The course is designed to offer small groups of 4-6 students; individual, specialized, intensive training in **KNX** building automation system. This course provides training in the **design, installation and commissioning of a KNX system** and is delivered by an experienced tutor.

The course will be divided in three sections: theoretical part, practical part and exam. During the theoretical part, the student will learn concepts of KNX technology. For the practical part the student will be asked to practice himself with the **KNX devices**.

The course will also be combined with **networking sessions** among participants, KNX Tutor and invited speakers. We will visit a KNX installation and we will have the chance for leisure, according to the agenda of the course. The candidates will enjoy a 'real taste' of the Catalan lifestyle, with events ranging from networking dinners in some of Barcelona's leading **Spanish restaurants**, to a visit to **Monsterrat Monastery**, and the beautiful beaches of **Sitges**.

## Dates and prices

This special edition of Networking Course is available for KNX Basic and KNX Advanced course.

✓ **KNX Basic Course:** The KNX Basic Course fee for the course is 1.300 EUR, including meals and dinners arranged in the agenda. Entrance tickets, Tourist tours, activities and shuttle bus/transfer are also included.
